TASK ANALYSIS & USER FLOW – PARKPILOT APP (parking slot booking app)

Roll No. 240701253

Name: Keerthana C

AIM:

To understand and document the steps a user takes to complete the main tasks within the **ParkPilot smart parking application**.

PROCEDURE:

Step 1: Assigning Tasks

1. Browsing Parking Locations
2. Searching for a Specific Parking Spot
3. Booking a Parking Slot
4. Checking Out / Confirming Booking

Step 2: Document User Flows

1. Browsing Parking Locations

1. **Home Screen:** User lands on the home page with a map showing nearby parking spots.
2. **Map Interaction:** User views available parking pins on the map.
3. **Parking List:** User scrolls through available parking locations.
4. **Parking Details:** User taps on a specific parking spot to see details.

Flow:

Home Screen → Map View → Parking List → Parking Details

2. Searching for a Specific Parking Spot

1. **Search:** User taps the search bar or icon.
2. **Enter Query:** User types location, landmark, or parking name.
3. **Search Results:** User reviews matching parking spots (list/map).
4. **Parking Details:** User taps on a specific parking spot.

Flow:

Search → Enter Query → Search Results → Parking Details

3. Booking a Parking Slot

1. **View Parking:** User browses or searches for a parking location.
2. **Parking Details:** User opens parking details page.
3. **Select Slot:** User selects slot type, date, and time.
4. **Book Slot:** User clicks "Book Now".

Flow:

View Parking → Parking Details → Select Slot → Book Slot

4. Checking Out / Confirming Booking

1. **Open Booking Summary:** User reviews selected parking slot.
2. **Proceed to Payment:** User clicks "Proceed to Pay".
3. **Enter Payment Info:** User provides payment details.
4. **Confirm Booking:** User clicks "Confirm Booking".
5. **Booking Confirmation:** App shows confirmation with slot number and QR code.

Flow:

Booking Summary → Proceed to Payment → Enter Payment Info → Confirm Booking →
Booking Confirmation

Step-by-Step Procedure to Create User Flows in Lucidchart

1. Create a New Document

- Go to Lucidchart and sign in/sign up.
- Click on + **Document** / **Create New Diagram**.

2. Select a Template

- Choose **Blank Document** or Flowchart Template.

3. Add Shapes for Each Step

Drag and drop shapes:

- **Login/Register**
- **Browsing Parking Locations**
- **Searching Parking Spots**
- **Booking Parking Slot**
- **Managing Bookings**
- **Navigation & Tracking**

4. Connect the Shapes

- Use arrows to connect steps logically.
- Show flow direction clearly.

5. Add Details to Each Step

Example for **Login/Register**:

- Open the app
- Click "Login" or "Sign Up"
- Enter details (email, password)
- Verify (OTP if required)
- Redirect to home screen

6. Use Different Shapes for Different Actions

- Rectangle → Actions (Search, Book Slot)
- Diamond → Decisions (Slot Available? Payment Successful?)
- Oval → Start/End

7. Customize and Organize

1. Arrange flows neatly
2. Use colors:
 - a. Blue → Actions
 - b. Green → Success
 - c. Red → Errors
3. Group sections:
 - a. Browse/Search
 - b. Booking

- c. Payment
- d. Tracking

8. Review and Save

- Check all steps
- Ensure proper connections
- Save (File → Save)

9. Share and Collaborate

- Click **Share**
- Export as **PDF/Image**
